

Jungle Rock Boulders and Benches, Climbing Boulders and Park Pets

Jungle Rock

SPORT ROCK has been a leader in realistic, highly detailed artificial rock manufacturing for well over 15 years, being one of the first to introduce realistic climbing products to the marketplace.

Our newest lightweight and durable **JUNGLE ROCK** boulder series reflects an ongoing effort for continuous innovation by combining high quality hand sculpture with a state-of-the-art fabrication process using green materials. Jungle Rock is in a class by itself and elevates the boulder to a totally new dimension with its bold, realistic sculpted animal images revealed within stone. Appealing not just for use as a climbing structure in parks and playgrounds, but also as a piece of useful, functional art to be placed in resorts, hotels, entries, malls, zoos or public art projects.
